

# THE ULTIMATE RV CAMPGROUND ARRIVAL & SETUP CHECKLIST

## AT CHECK-IN

1. **Confirm with staff that your site has the amenities you booked (electric/water/sewer/cable/ etc.).**
2. **Check with staff for major campground rules, bathhouse and dumpster locations, etc.**

## CAMPSITE ARRIVAL

1. **Walk your site.** Check for glass, dog waste, etc. Look for low-hanging branches that could damage your RV.
2. **Chock your wheels.**
3. **Rough level your camper.**
4. **Jacks down.**

## RV SET-UP

1. **Level camper with on-board levelers.** Make sure the camper is level before you start connecting electric, water and sewer lines.
2. **Connect electric.** Turn off breaker (if accessible). Connect electric to camper, plug into receptacle, then turn breaker back on.
3. **Connect water.** Be sure ALL water spigots in camper are OFF. Then connect water. Be sure to use a pressure regulator to prevent damage from high water pressure.
4. **Connect sewer.** We recommend using downhill hose supports to help waste flow. Leave valves CLOSED for black and gray water until you are ready to dump the waste. When dumping: black water first, then gray to flush it out.
5. **Connect cable TV (if available).**
6. **Pop out all slides.**
7. **Set up camper.** Swap fridge from gas to electric. Get ice maker filled up and turned on. Unpack appliances, toiletries, etc. Put awning out and set up site.

## NOTES:
